Describe your project accurately and how you developed your idea

The project's main concept is 'Look ! Touch! Feel!'. I aim to show the eco tactile vision of Textile work waste and give the pleasure to feel the touch. Textile is a very tactile material and it invites people to touch it. Behind the beautiful Textiles, the work waste show the contrast vision. After every day Textile works, I gathered the waste in disposable cups. Therefore, I could see the quantity of the waste and made the result of the waste reduction. I reworked with the waste and explored on the hidden aspect of it. The eco vision of the waste gives the reminding of the reduce throwing away and the idea of new tactile.
