Describe your project accurately and how you developed your idea

Setting: a classroom in a secondary school
 People involved: an ICT teacher, an Art teacher and a group of 12-13 years old students
 Materials: PVC, PET, PE, PP, PS, Nylon found in domestic waste
 Tools: cutters, scissors, rechargeable drills, hairdryers, a sewing machine, an iron, thread and needles
 Products: shopping and walking bags
 Website: <https://susbag.home.blog>
 Goals: - encourage creativity - develop a philosophical approach to entrepreneurship starting from circular economy and biomimicry principles (conscious consumers) - strengthen a peer and transgenerational cooperation in problem-solving situations - create a S.U.S. network to encourage global relationships linking different systems, places and minds; promote environment cleaning thus generating a virtuous cycle - extend the working life of plastic objects
