|---|--|
| Prize Category | Design |
| Project Title | You Sea? Sea You! |
| Source of the used material | plastic trash collected on the beach |
| Type of plastic involved | PolyPropylen, PolyEthylen |
| Other materials involved | metal, round heat rivet |
| Years of production | 2015 / 2018 |
| Edition | not edited for the moment |
| Weight and Dimensions | 5kg/10kg and approximatively 80cm height x 40cm diameter |
| Manufactured by | me and an south compagny for the top and the bottom in folding metal |
| Describe your project accurately and how you developed your idea | <p>This project was my diploma in the Beaux-Arts School from Toulon in 2015. Now I have reworked on the global design of this product because it's need many improvements. The main idea was to collect plastic trash from the beach. After many collects and read many things about plastic, I used all the PP and PE plastics I've found to product some recycled plastic tiles. All of them can be assembly to produce an outdoor trash bin only dedicated to plastics. In the pictures you can see the old prototype and the new 3D of the design. The main goal of this project is to be used for collecting the most plastic trash it can. I hope all the trash color gonna give to the project an original and colored esthetic to intrigant people and tourist who found plastic or use plastic at the beach. I'm actually working to produce the evolution of "You sea?" to be the "Sea you!" project. If you want more informations about it, don't hesitate to contact me. (:</p> |
