Street Address 2	
Postcode / Zip	
University (just for students)	
Document	
Document Number	

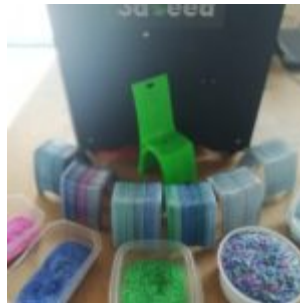

Prize Category	Conscious Innovation Projects
Project Title	Direct using of Plastic in our 3d printers
Source of the used material	Cleaned Water Bottles.
Type of plastic involved	PET
Other materials involved	-
Years of production	2018
Edition	
Weight and Dimensions	
Manufactured by	
Describe your project accurately and how you developed your idea	We make Modular machines to recycle PET Water bottles directly in our special 3D Printers. I'd like to setup one for you and show you how well it works for the Circular Economy. The machines are a world first and show that people are happy to separate the plastic and get a part made from it
