

GuiltlessPlastic PRESENTS

RO PLASTIC-MASTER'S PIECES

calling artists to reuse and reinvent plastic waste

Enrinco Marone Cinzano / Pino

This coffee table is composed of a handmade material, using as a raw material exclusively recycled plastic. In the specific case of this project, the base is Black Dapple, material produced with cutting boards and plastic wrappings. The support surface consists of a wooden block of Mediterranean maritime pine cascaded naturally after a storm, which is given the black color by burning, naturally stabilized, with a flame. In this case, interesting that all the materials in question were trees, originally.

Dimension:
95 x 50 x 70 cm
